duffali16@gmail.com

Fullstack Developer junior with experience in OpenStack cloud environments and IT positions at startup companies. Proven ability to develop, deploy, and maintain web applications, leveraging both frontend and backend technologies. Skilled in working within fast-paced and dynamic teams, with a strong foundation in HTML, CSS, JavaScript, and frameworks such as React and Node.js. Committed to solving real-world problems through innovative technology solutions, and continually advancing technical expertise through self-learning and professional development.

Work Experience

Cloud Infrastructure Engineer -intern

01/2024
BLC
Ankara , Turkey

Motivated by a passion for technology and innovation, I bring a blend of fullstack development and cloud infrastructure experience to drive impactful solutions. Eager to contribute my skills in OpenStack cloud environments and web development to a forward-thinking team, while continuing to grow and learn in the field.

FrontEnd Developer

06/2022 to 12/2023
Spondias
Hybrid

A Frontend Developer specializing in developing and maintaining web applications using modern frameworks and technologies such as React. This role involves designing user interfaces, implementing interactive features, and ensuring a seamless user experience. Responsibilities include writing clean, maintainable code, performing code reviews, and troubleshooting issues to ensure optimal performance and responsiveness of applications. Additionally, I oversee a team of interns, providing guidance, mentoring, and evaluating their progress. This role requires strong communication skills, a collaborative mindset, and the ability to manage multiple projects and deadlines effectively. The developer works closely with backend engineers, designers, and other stakeholders to deliver high-quality software solutions.

Skills

JavaScript frameworks/libraries such as React and Angular.   - 2 years

Python   - 4 years

RESTful API design and integration.   - 1 year
